PROFESSIONAL EXPERIENCE

upGrad, Director of Product (Growth & Acquisitions) - Bengaluru Apr 2021 - Mar 2026

Led **10-member org (PMs, designers, UX writers)** across acquisition, conversion, and assisted revenue.
Promoted from PM II → Director (**3 promotions in 5 years**)

- Challenged over-reliance on late-stage conversion (~21% organic ceiling); pivoted to new acquisition surfaces — unlocking **₹8 Cr incremental revenue per quarter** (10% of BU) within 2 quarters
- Overhauled siloed PM structure into journey pods (traffic → lead → payment) with clear metric ownership per pod — achieved **20% funnel conversion lift** and **25% revenue per lead** within 18 months
- Drove visitor-to-lead conversion **3%→12%** by rebuilding acquisition funnel around user decisions — separating paid and organic experiences was the **critical unlock**; paid conversion moved **2%→9%**
- Unlocked **₹20 Cr incremental quarterly revenue** on flat traffic through funnel re-architecture — managed CXO alignment via milestone-based experimentation plan with defined checkpoints
- Engineered a viral growth loop by replacing a manual referral process with a scalable multi-tenant engine; referral channel scaled to **15% of BU revenue (₹45 Cr annually)** at 3× lower CAC
- Built the product stack for upGrad's offline channel from zero — countered CXO scope push with footfall data, locked phase 1; reached **₹10.8 Cr quarterly at 2% lead-to-payment** across 40+ stores
- Diagnosed CAC ceiling from paid channels; led team of 8 to build a content + free-resources acquisition engine, reaching a segment invisible to paid — generating **₹6 Cr quarterly revenue at near-zero CAC**
- Pinpointed sampling anxiety as conversion barrier; shipped 7-day free trial **progressive feature discovery and timed conversion nudges** — delivering **32% revenue lift, ₹8.3 Cr → ₹10.9 Cr quarterly** on flat traffic
- Architected AI-driven call intelligence — aligned sales and quality leaders on rubrics via 100+ call validations; **pitch scores up 30%, call-to-payment up 15%**, audit team **8→2 in 6 months**
- Created an LLM-powered AI career risk platform — cohort-based CV scoring reaching professionals outside upGrad's TAM; 40K leads/month, **₹6.7 Cr incremental quarterly revenue**
- Identified via call analysis that alumni conversations were manually converting fence-sitters; productised into a profile-matched alumni connect tool — driving **10% uplift in lead-to-payment (~₹4.5 Cr quarterly)**
- Pioneered upGrad's first self-serve checkout; identified conversion blockers, aligned payments and SAP teams to automate it — enabling **5% visitor-to-payment conversion** without sales dependency
- Engineered a self-serve affiliate platform to eliminate 10-day onboarding bottleneck — cut TAT to **5 hrs**, expanding to 30+ partners in 3 months, reaching **₹5 Cr quarterly revenue**
- Rejected external experimentation vendor on page speed and cost grounds; built **in-house traffic-splitting service** — convinced engineering to scope org-wide; saving **₹60L+/year** in licences
